Good morning,

I would like to thank everyone for their response to our meeting request. We are working with Gail and Jae's assistants to find a date that will work. Right now we're looking at late September and hope to confirm soon.

Thank you to Gail and Jae for getting the ball rolling. We'll be in touch as soon as we have a date.

Thanks,

Danelle

Subject: Meeting request

Dear Richard, Gail, Jae, Dale, Scott, CAPT Kauffman and Elizabeth,

Thank you for taking the time to meet with members of the natural resources community recently on the state's planned exposure investigation in Lane County, Oregon. The information you shared and your responsiveness to questions was appreciated.

As discussed at the meeting, we would like to formally offer to have our toxicologists meet with you, the toxicologists consulting with the Pesticide Analytical Response Center (PARC) and the scientists in your departments. The purpose of the meeting would be to have a scientific exchange of exposure data on atrazine. As you may know, there are over 6,000 studies on atrazine. Of these, our toxicologists will be able to provide the most relevant data and studies, including human studies. We believe a direct exchange between the scientists will allow for a productive discussion about data and information that can help with the interpretation of urinary detections of atrazine metabolites.

I will be happy to arrange a meeting with our toxicologists either in person in Salem, or over the phone, whichever is most convenient. We look forward to a robust exchange of information with you and your colleagues soon.

I look forward to hearing from you.

Kind regards,

Danelle

**Fw: Meeting request**

Elizabeth Allen to: Sheila Fleming, Scott Downey, Kay Morrison, Linda Liu 08/04/2011 11:13 AM

I'm not getting a feeling of cooperation here if a) OHA has already responded and is scheduling dates, and b) we were not consulted first. I didn't respond because I felt this invitation warranted a response from the group with a single voice. Most certainly if there is going to be a meeting, I'd like to be there.

Elizabeth

Re: Highway 36, Exposure Investigation e-mail list (8/1/11) 

Scott Downey to: Dale Mitchell

08/04/2011 01:11 PM

Cc: David Powers, Harold Rogers, Anthony Barber, Sheila Fleming,  
Socorro Rodriguez

update to email list:

Sheila's name is misspelled

please add from our Oregon Office in Portland:

David Powers: powers.david@epa.gov

Harold Rogers: rogers.harold@epa.gov

Anthony Barber: barber.anthony@epa.gov

from our Office of Regional Counsel:

Socorro Rodriguez: rodriguez.socorro@epa.gov

Also, you don't need to include the "epamail" part of the address. It can just be @epa.gov. It works either way though.

It seems like it would be good for EPA to be present. I doubt we'll ever see the state be proactively inclusive (at least we haven't seen it yet) but if anyone is willing to be outspoken and not take no for an answer it would be Elizabeth (and me, but I don't need to attend that meeting).

I vote that Elizabeth go. Take no prisoners.

## Triangle Lake Air Sampling Money

Juliann Barta to: Scott Downey, Sheila Fleming, Elizabeth Allen

08/04/2011 05:11 PM

Cc: Linda Liu, Socorro Rodriguez

Hi all. Margo is the Childrens Health Coordinator for Region 10. I asked her to inquire about available money from OCHP for air sampling near Triangle Lake and below is the reply.

Can someone assist me by drafting a few bullets? IE number of samples that will be collected? expected costs? Testing for atrazine and 2,4,D in the air similar to Dr Barr study? How has OPP been involved? Anyone else from HQ? etc

This handout is the only background material I have to share: [attachment "ET Pitchfork Rebellion presentation final handout.pdf" deleted by Scott Downey/R10/USEPA/US]

Thanks!

Date: 08/04/2011 04:05 PM  
Subject: Re: Fw: have you heard back from Margo re HQ Office of Children's Health?

Hey Juliann. I mentioned it on a call today with Peter Grevatt from OCHP. He seemed receptive, but wanted some more info, including who else from HQ is involved and has been approached. If you wouldn't mind, could you put together a few bullets for me with background and details that I can send to him tomorrow morning? I've been swamped today and am going on vacation all next week. If you can get it to me tomorrow morning, I can send to Peter tomorrow. Otherwise, you can send directly to Peter Grevatt and Khesha Reed with a cc: to Matthew Davis. You can just say you are following up since I am out. Sound good? Thanks. I'm swamped trying to finish up today.

Good morning,

Thank you to Gail and Jae for suggesting dates for the atrazine toxicology meeting as requested below. We have confirmed Friday, September 23rd, 2011 from 3pm to 5pm. Given the different office locations of everyone it seems Portland would be a good central meeting point. We will confirm logistical information as the date approaches.

Please let me know if you are available to attend. We believe this will be an excellent opportunity to have a productive scientific exchange. Not only would we like to present you with the latest and most relevant atrazine data, we would also like to discuss any specific areas you are interested in and answer any questions you may have.

Thank you and I look forward to hearing back from you!

Kind regards,

Danelle

Good morning,

Thank you to Gail and Jae for suggesting dates for the atrazine toxicology meeting as requested below. We have confirmed Friday, September 23rd, 2011 from 3pm to 5pm. Given the different office locations of everyone it seems Portland would be a good central meeting point. We will confirm logistical information as the date approaches.

Please let me know if you are available to attend. We believe this will be an excellent opportunity to

have a productive scientific exchange. Not only would we like to present you with the latest and most relevant atrazine data, we would also like to discuss any specific areas you are interested in and answer any questions you may have.

Thank you and I look forward to hearing back from you!

Kind regards,

Danelle

To: 'richard.m.whitman@state.or.us'; 'gail.r.shibley@state.or.us'; 'jae.p.douglas@state.or.us'; 'dmitchel@oda.state.or.us'; 'downey.scott@epa.gov'; 'rkauffman@cdc.gov'; 'allen.elizabeth@epa.gov'  
Subject: Meeting request

Dear Richard, Gail, Jae, Dale, Scott, CAPT Kauffman and Elizabeth,

Thank you for taking the time to meet with members of the natural resources community recently on the state's planned exposure investigation in Lane County, Oregon. The information you shared and your responsiveness to questions was appreciated.

As discussed at the meeting, we would like to formally offer to have our toxicologists meet with you, the toxicologists consulting with the Pesticide Analytical Response Center (PARC) and the scientists in your departments. The purpose of the meeting would be to have a scientific exchange of exposure data on atrazine. As you may know, there are over 6,000 studies on atrazine. Of these, our toxicologists will be able to provide the most relevant data and studies, including human studies. We believe a direct exchange between the scientists will allow for a productive discussion about data and information that can help with the interpretation of urinary detections of atrazine metabolites.

I will be happy to arrange a meeting with our toxicologists either in person in Salem, or over the phone, whichever is most convenient. We look forward to a robust exchange of information with you and your colleagues soon.

I look forward to hearing from you.

Kind regards,

Danelle
